

## JETCRETE AUSTRALIA

# SAFETY & HEALTH POLICY

JETCRETE AUSTRALIA PTY LTD is committed to complying with any relevant Safety & Health legislation and any additional requirements that may be required on a client's work site. Measurable objectives and targets are in place to ensure that processes are continually improved and that so that work related injuries and health concerns are eliminated or mitigated.

### VALUES

- JETCRETE AUSTRALIA PTY LTD is committed to ensuring a strong, positive safety culture which is fundamental to the company's activities.
- JETCRETE AUSTRALIA PTY LTD is committed to providing a safe and healthy workplace for all employees, sub-contractors, visitors and service providers.
- JETCRETE AUSTRALIA has a goal of an incident and injury free workplace. Through implementation of our safety management system we can achieve this goal.
- JETCRETE AUSTRALIA encourages all individuals to take responsibility for their own safety and incident prevention. There is no task that cannot be done safely. Safety is the shared responsibility of all Jetcrete Australia and associated personnel.

### RESOURCES

- JETCRETE AUSTRALIA will provide and allocate resources as practicable to maximize safe work practices and productivity. We will actively cooperate with employee representatives on Safety & Health issues in the workplace.

### TRAINING

- JETCRETE AUSTRALIA will provide information, instruction, training and supervision so that all employees can perform their work safely. It is the responsibility of each employee to actively participate in safety training activities.

### RISK MANAGEMENT

- JETCRETE AUSTRALIA personnel are responsible for identifying hazards in the workplace and addressing them as a priority above all else to reduce or eliminate the risk of injury or harm to themselves or others.
